

LEARNING EVALUATION AND ANALYSIS PROJECT III (LEAP III)

SCOPE:

LEAP III provides access to rigorous, independent technical evaluation and technical advisory services. The scope supports economic growth and poverty reduction by increasing the effectiveness of USAID programs through better informed program design, monitoring, evaluation, and learning. The contract objective is to provide clear, unbiased, and necessarily critical view of USAID interventions to ensure that activities operate at an optimal level and the Journey to Self-Reliance is realized. USAID missions receive support for capacity building in Private Sector engagement, performance-based program design, and performance/ impact evaluations; engaging partner governments and civil society counterparts for comprehensive impact and sustainability. As a global task order contract mechanism, Integra has been required to respond to diverse Bureau and Mission needs quickly, and with technically rigorous approaches and exemplary teams. Integra has completed or is currently implementing 47 activities, in 30 countries, including the sectors of agriculture, energy, biodiversity, education, trade, health service delivery, tourism and public private partnerships sectors.

PERFORMANCE
RATING

"The activities/tasks requested by USAID field Missions and Bureaus are very time sensitive and Integra has been very flexible and they jump started the activities when they received COR approval. Overall, they are exceptional on schedule adherence."

Dr. Yoon Lee, USAID LEAP III Contracting Officer's Representative
